THE RISE & FALL OF
WORLD ORDERS

12:15 PM - 12:50 PM
ACM - OL6 9JA

Collapsing World Systems

Mankind used to be one community, then Allah sent the Prophets as bearers of glad tidings and as forewarners. And He sent down with them the Book with the truth to judge between mankind regarding whatever they differed over. (2:213)

We are on Allah's Earth, His people, guided by His Prophets, called to apply His justice and live by His system. But our man-made world systems are collapsing.

A Moment of Rupture

We are living in a moment that history will not forget. This is not simply a change of governments or another cycle of global tension. **THIS IS A MAJOR RUPTURE.** The story that power was restrained by rules, borders were protected by law, institutions guaranteed justice, were all facades that are now failing. The reality is unravelling before us of what man-made systems demise & now their desperations to hold on.

These are the days which We alternate among the people. (3:140)

The Pattern of Power

Power rotates. Dominance is temporary. No civilization is immune.

Allah ﷻ has shown us this pattern before:

The Peak

Firawn stood at the peak of power & declared himself supreme.

The Fall

Allah seized him with punishment in this world & the next.

The Pattern

He did not fall because he lacked strength - he fell because arrogance blinds systems to their own collapse.

Today

We are seeing this pattern again now. History always repeats itself because human conditions don't change.

World Orders Rise & World Orders Collapse

Allah ﷻ doesn't just narrate the destruction of past nations for entertainment. He's teaching us the laws of history that repeat if we do not learn.

For every nation is an appointed term; when their term comes, they cannot delay it by an hour nor bring it forward. (7:34)

Every collapsing order uses the same language to control: national security, stability, reform, rules. But rules that apply only to the weak are not rules - they are tools to control and manipulate societies and nations. Venezuela, Greenland, Iran, Palestine...

History has a rhythm, a cycle of ascent and decline. Those who ignore its lessons are doomed to repeat its errors, mistaking temporary dominance for eternal truth.

We assumed the EU - USA were all aligned with one goal but the reality is coming forth. Externally coordinated. Internally fractured. Empires rise, extract, dominate - then fracture under their own contradictions and we are seeing this now.

The Canadian prime minister - Mark Carney - delivered a powerful speech at Davos – a wake-up call - Read the Book The Power of the Powerless - A grocer places a sign in his window he does not believe, but just to comply & because everyone does it, the system persists.

The Psychology of Decline

THE DIVINE WARNING:

Allah repeatedly warns us not to spread corruption on earth, yet the arrogant respond:

HUMAN RESPONSE:

We are only reformers. (2:11)

You think they are united, but their hearts are divided. (59:14)

Old World Orders vs the Prophetic World Order

There exists a fundamental divide between two approaches to organizing human civilization.

Western Order

Rose through colonial expansion, industrial power, control of trade routes, capitalism, and technology. Built on dominance and extraction.

Islamic Order

Rose through justice, learning, trade, law, and moral authority. The Prophetic world order was timeless, Qur'anic, principled, ethical, and just.

Foundations of the Islamic Order

Faith & Character

Individual righteousness as the foundation of society

Family Foundation

The family unit as the cornerstone of community

Ethical Commerce

Trade and business rooted in honesty and fairness

Justice Before Power

Accountability and protection for all, based on Taqwa

Principle-Based Orders

You are the best nation produced (as an example) for mankind. (3:110)

Why? Not dominance, not wealth, but moral guardianship and justice – Divine System

1

Righteous Cooperation

Cooperate in righteousness and piety, but do not cooperate in sin and aggression. (5:2)

2

Justice Without Exception

Do not let hatred or fear stop you from doing justice. (5:8)

3

Custodianship

We are appointed as Khalifas - not to dominate, but to bear responsibility as custodians of Allah's earth (6:165)

Human Orders - Game Theory

Power-Based Orders - Allah exposes their roots

Indeed, man transgresses when he sees himself as self-sufficient. (96:6-7)

Monopoly

Resources, security narratives, control of currency, supply chains, routes, and information.

Colonial Legacy

Colonialism was never just about land - it was about ports, minerals, valleys, trade corridors.

Human Reality

Desire - the Nafs dressed up as policy.

The Game

This is game theory: pressure, leverage, intimidation - when the rules no longer serve the powerful, the rules change.

The Prophetic World Order in Practice

The Prophet ﷺ demolished elite immunity when he declared:

By Allah, if Fatimah the daughter of Muhammad were to steal, I would cut off her hand. (Muslim)

This is why Imam Abu Hanifah was imprisoned & Imam Ahmad was tortured. Scholars refused to uphold corrupt, unethical systems for political comfort.

Who do you appease
What do you perpetuate?

Living Within The Lie - Unplugging From the Matrix

Do not think they will get away with it. (14:42)

Allah ﷻ delays - He does not ignore. Corruption today looks sophisticated, legal, bureaucratic - but Allah's grip is unchanged. He is watching your actions & silences. What systems are you quietly following, or speaking up against?

The Illusion of Compliance

Every unjust system survives by spreading responsibility so thin that no one feels accountable.

"Everyone does it.
That's just how the system works. I had no choice."

The Questions That Matter

You will not be asked which government you served or which empire benefited you.

You will be asked: *Who is your Lord? What is your Deen? What did you say about Muhammad ﷺ?*

The Reckoning

"Stop them. They are to be questioned." (37:24)

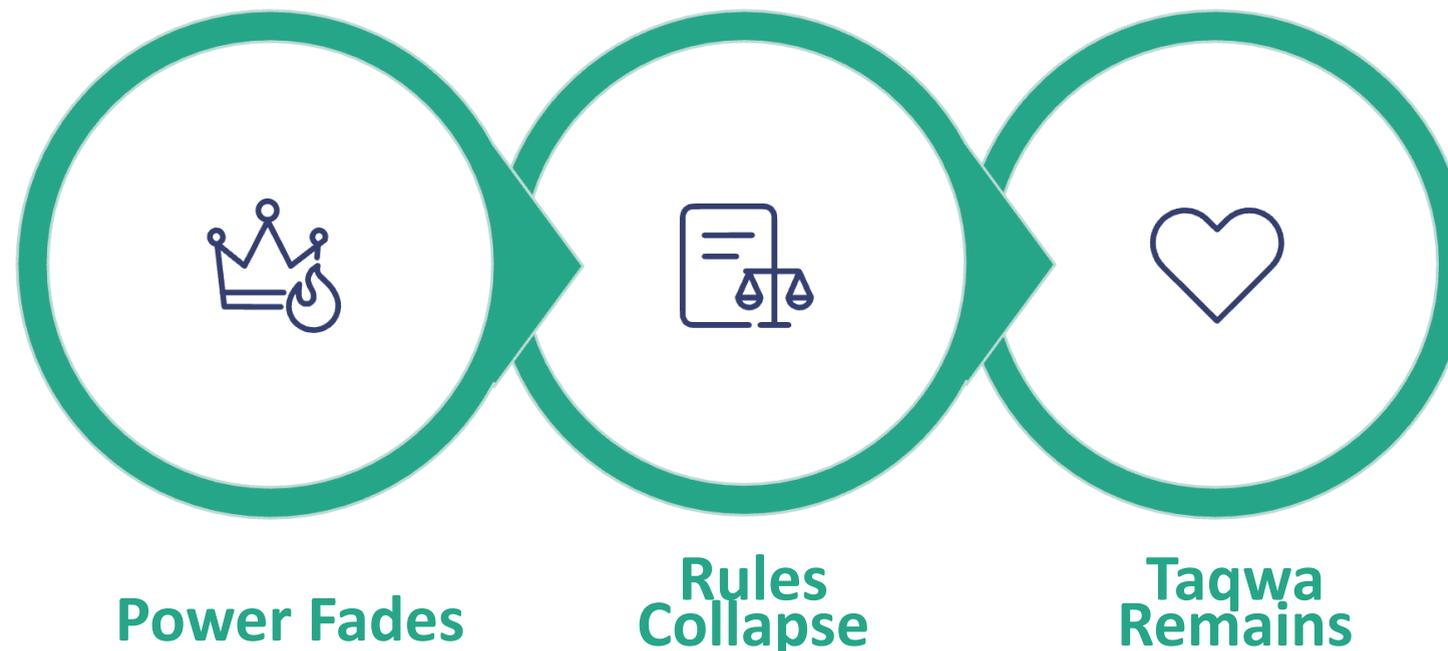

The grave destroys all illusions of worldly systems and will hold you accountable

Consent, Contribution & Responsibility

Each of you is a shepherd, and each of you will be questioned about his flock. (Tirmidhi)

Authority is an Amanah, not entitlement. We are custodians, not capitalists or colonialists. We need to implement Allah's system for humanity.

Protection should not be tied to contribution where the **"INSIDER"** is safeguarded. Whereas the undocumented or expendable is marginalised & expelled.

The Eternal & Absolute Truth

Kingdoms Fall

Every empire, every system, every power structure eventually crumbles

Only Allah Remains

Everyone, everything will perish - except Allah. (40:16)

Taqwa Stands

And the outcome belongs to the people of Taqwa. (28:83)

Stand With Divine Truth & Prophetic Order

Do not be seduced by systems that promise security at the cost of truth

Do not live within lies you know are false - unplug yourself and wake up

Anchor yourself in Allah's systems - in your earnings, speech, actions, alliances, courage and life

We are not here to build our own systems in rivalry to Allah – Apply the Qur’anic & Prophetic system of life which has been perfected for us

BECAUSE WHEN SYSTEMS FALL, TAQWA WILL STAND & ONLY ALLAH WILL REMAIN
